## Tractor update

Fundraising for the new tractor continues. Multiple applications have been sent out to charitable funds both local and national and we await news. One major West Sussex fund has promised us £5k contingent on us raising the remaining £10k. All ideas welcome!

## *Work starts soon on repairs at our clubhouse and to the toilet block*

It's almost time to start the pre-season work to get the clubhouse ready for the start of our 2024 programme.

AYAC will be running working parties over the next few months to work through the jobs that are needed to improve the club for the short and longer term.

The main focus will be on re-cladding the exterior of the main building. For anyone who can help that will involve removing the existing cladding, cutting and fixing the new cedar, which has already been delivered and is ready to be attached.

The toilets are also going to be improved and will either be replaced or refurbished. All of this work will be weather dependent and need volunteers to make the improvements, **call or text 07731790598** to offer help.

When a session has been confirmed please check the Adults WhatsApp group for more details and for cancellation info due to bad weather.

## *Powerboat 2024, interested?*

We will again be running a powerboat course. The two-day course will cost £250 for non members, £175 for members and immediate family. Watch this space for details!
